## Other Benefits

### Tax Benefits:

You may be eligible for tax benefits as per applicable tax laws. Tax benefits are subject to change in the tax laws. Kindly consult your tax advisor for detailed information on tax benefits/implications.

## Policy Loan

A life insurance policy should be handy for you in case of any adverse financial emergencies and this plan caters to that, whereby you can avail a loan under the policy once the policy acquires surrender value.

The maximum loan amount you may avail is a specific percentage of Surrender Value applicable under the Policy when a request for a loan is received less any outstanding Policy Loan plus accumulated/accrued interest, if any, on that date. The specific percentage is as mentioned below:

Base Option Without Family Income Benefit: 60% of the Surrender Value

Enhanced Cover Option and Base Option With Family Income Benefit: 50% of the Surrender Value

If a loan is granted by us under the policy, then:

- (1) Interest will be charged on the outstanding loan amount at a rate declared by us from time to time based on then prevailing market conditions and will be equal to Three year (tenure) SBI MCLR + 0.50% subject to floor of 7.00%. The rate of interest for policy loan as on March'2022 is 7.80% per annum. The interest on loan will be calculated on annual compounding basis. The interest rate methodology is reviewable with prior approval from IRDA of India. We will review the interest rate at least once a year and if the interest rate is revised, the same interest rate will be applied to both existing and new loan from the date of revision.
- (2) For in-force and fully Paid-up policies: Policy can't be foreclosed on the ground of outstanding loan amount including interest exceeds the Surrender Value. For other than In-force and fully paid-up policies, if at any point of time outstanding loan amount and accumulated interest balance equal or exceed Surrender Value, then the Policy shall be terminated without value. Prior to this, we will notify you when your outstanding loan balance is 95% of the Surrender Value and will give an opportunity to repay all or part of the loan balance.
- (3) Any benefit payable by us on the death of the Life Insured or on the surrender of the policy or on the Maturity of the policy will first be reduced by any outstanding policy loan and accumulated interests, if any.

It is recommended that you pay all premiums for the period selected to be able to enjoy all policy benefits. However, at any stage if you stop paying premiums the following shall be applicable:
