NON-FORFEITURE BENEFITS

REDUCED PAID-UP BENEFITS

If all the premiums have been paid for at least three consecutive years then the policy will not lapse and continue as a 'Reduced Paid-up' policy and all the benefits shall be reduced proportionately.

All the benefits will be multiplied by a paid up factor, where paid-up factor is as below:

Paid-up factor = (Number of premiums paid/ Number of premiums payable)

On the policy being paid-up, the benefits are as follows:

Reversionary and Cash Bonus

No further bonus (reversionary and cash) will be declared for that policy. The reversionary bonuses that have been declared so far, and if not paid earlier, will be protected and paid on death or at the end of premium paying term, whichever is earlier.

Money Back

Money back will continue to be paid as in-force policy. However, the amount of money back will be based on Paid-up Sum Assured on Maturity where

Paid-up Sum Assured on Maturity = Sum Assured on Maturity * Paid-up factor

Death Benefit

On death of a life assured, after the policy getting paid-up, the beneficiary will receive:

Before the end of premium paying term:

- 100% of Paid-up Sum Assured on Death PLUS
- Accrued bonuses declared till the policy gets paid-up

After the end of premium paying term:

- 100% of Paid-up Sum Assured on Death

Paid-up Sum Assured on Death = Sum Assured on Death * Paid-up factor

Maturity Benefit

On maturity of the policy, the reduced sum assured on maturity will be payable.

Further, the benefit payable on maturity shall never be less than 105% of total Annualized premiums paid to date.

SURRENDER BENEFIT

The Policy will acquire Surrender Value if all the premiums have been paid in full for at least first three policy years. On surrender, the Policy shall be terminated and all the benefits under the Policy shall cease to apply.

The Guaranteed Surrender Value is a sum of surrender value of premiums and surrender value of accrued reversionary bonuses, if not already paid. Surrender value of premium is a percentage of premiums paid (excluding any premiums paid towards rider benefits, and underwriting extra) less 50% of any Money Back benefits already paid till the date of surrender. The Guaranteed Surrender Value will vary depending on the premium paying term and the year the policy is surrendered. The policy is also eligible for Special Surrender Value and on surrender higher of Guaranteed Surrender Value or Special Surrender Value will be payable.

(Note: After completion of premium paying term and on payment of accrued reversionary bonuses, the surrender value of bonuses will not be available and only surrender value of premiums will be made available.)

POLICY LOAN

Policy loan is available once policy acquires surrender value. Maximum loan amount available is 90% of surrender value offered by the Company. Interest will be charged on the outstanding loan amount at a rate declared by the Company from time to time based on then prevailing market conditions and will be equal to "SBI Base rate (minimum rate at which SBI lends) + 1.75%" per annum. The Company may at its discretion modify the rate at which interest will be payable based on prevailing market conditions. Changed interest rate will be applicable for new loans only.

For reduced paid-up policies, if at any point of time outstanding loan amount and accumulated interest balance equal or exceed surrender value, then the policy shall be terminated without value. Prior to this, the Company will notify the policyholder when his/her outstanding loan balance is 95% of the surrender value and will give an opportunity to repay all or part of the loan balance. On death of the life assured, maturity or surrender of the policy, the outstanding loan amount and accumulated interest will be recovered from the benefits payable and rest of the benefit amount will be paid.

The revival will be considered on receipt of written application from the policyholder along with the proof of continued insurability of life assured and on payment of all overdue premiums. Company will charge simple interest of 1% per month on unpaid premiums for every completed month from the date of the first unpaid premium. The rate of interest would be reviewed subject to Board approval. The proof of continued insurability and medical examination if required (medical examination cost to be borne by the policyholder) and the results thereof would be interpreted and if the life is acceptable from the underwriting point of view then it will be allowed to revive. Revival would be as per Board approved underwriting guidelines. Any revival of riders will be considered along with the revival of the base policy, and not in isolation. All the benefits of the policy will be reinstated on the policy revival.

The policyholder may choose to discontinue the rider premium even though he is paying the premium pertaining to the underlying base product to which the rider is attached. In such a case of rider premium discontinuance, the rider is not allowed to be revived in future. However in case the entire policy premium (the base product and the rider) has been discontinued and the policyholder wants to revive the same then he would be allowed to revive within two years from the date of the first unpaid premium.
