#Accident is defined as "An event caused solely and directly by violent, unexpected and external means and independently of all other causes, of which there is as evidence a visible contusion or wound on the exterior of the body.

"Total Permanent Disability" or "Disability" means total, permanent and continuous disability where:

- 1) The Insured has continuously been absent from his employment for a period of at least 12 consecutive months as a result of disability, and
- 2) In our opinion the Insured, despite optimal medical care/treatment and rehabilitation efforts, is unable ever again to work in:
 - a) Any occupation or regular duties for which he is reasonably qualified or fit by knowledge, training or experience; or

- 3) All usual and reasonable treatment and rehabilitation measures have been employed for a period of at least 12 consecutive months to restore or preserve the working ability of the Insured; and

- 4) For purpose of the definition of Total Permanent Disability, it is immaterial whether a business, occupation or regular duty generates income or is remunerated for or not.

In order to determine for claim purposes the total and permanent character of the Insured's disability, it is mandatory that the disability must be uninterrupted for at least 12 months from its date of commencement except in case of Presumptive Disability below where we immediately recognize the Disability as being total and permanent in nature.

"Presumptive Disability" means the occurrence of any of the following:-
