## Simple Steps to choose your plan

### 1. Decide on Wealth Accumulation need.

Based on your discussion with our Personal Financial Advisor, decide on your wealth accumulation need and choose an appropriate premium

### 2. Choose the Policy Term.

Choose your policy term based on the period after which you may require your accumulated wealth. Policy Term is the period during which you get the benefits of life insurance protection along with wealth accumulation.

### 3. Choose the Policy Premium Paying Term and frequency of payment.

Based on your income stability and comfort choose between the various premium paying term options and the frequency of payment (Monthly / Half Yearly / Quarterly / Annually)

### 4. Choose your Sum Assured.

The benefit payable in case of premature death is:

Higher of Fund Value or Sum Assured, subject to minimum of 105% of total premiums paid (including top-up)

Where,

Sum Assured is the guaranteed amount payable in case of unfortunate death of the Life Assured.

Fund Value is the accumulated wealth as given by the value of all your units based on the current NAV (where NAV is the value of one unit of fund on a given day)

### 5. Decide on the Funds you want to invest in

Based on your risk appetite and willingness to manage your wealth choose the funds that you want to invest in. You have the flexibility to switch between the available funds should your requirements change in the future. You can also choose to redirect your future premiums in different funds keeping the current allocation same as before.

### 6. Choose comprehensive protection through Riders

Riders are the additional benefits that you can buy along with your policy. They let you further customize your insurance cover to suit your changing needs.

### 7. Free look period

Once you receive your policy, then during the first 15 days you can go through the policy document and review the terms and conditions of the policy. If you disagree with any of the terms and conditions, you have the option to return the policy stating the reason for your objection. We would return the fund value as on date of cancellation along with the premium allocation charges, proportionate mortality charges for the remaining policy month and policy administration charges already deducted. We would however recover the stamp duty cost and cost of medical examination, if any.
