All your benefits in this plan are guaranteed and are known to you upfront while you consider taking this plan.

1. Guaranteed Maturity Benefit

At the end of your policy term, you will receive the Guaranteed Maturity Benefit provided all due premiums have been paid in full and the policy is in-force. Your Guaranteed Maturity Benefit is equal to the Sum Assured on Maturity.

2. Guaranteed Death Benefit

In case of unfortunate demise of Life Insured while the policy is in-force, the Nominee will receive the Guaranteed Death Benefit.

The Guaranteed Death Benefit is equal to the Sum Assured on Death which is -

Higher of –

- 10x Annualised Premium⁽¹⁾; or
- Sum Assured on Maturity; or
- 105% of Total Premiums Paid⁽²⁾ upto the date of death; or
- Any absolute amount assured to be paid on death which is higher of Sum Assured on Maturity or 10 x Annual Premium⁽³⁾.

The policy has a 90 day waiting period from the Date of Inception of the Policy within which, if death occurs (other than due to accident), the nominee will receive 100% of the premiums paid till the date of death excluding applicable taxes. During this period the Guaranteed Death Benefit will not be payable.

HOW DOES THE PLAN WORK?

We offer this plan to you in a very simple manner. Once you have considered taking this plan, you will need to choose the following:

— **“Know what you want” → Choose your Sum Assured on Maturity**

A guaranteed amount that you want to receive at the end of your policy term. All your policy benefits will depend on the Sum Assured on Maturity that you choose. If you choose a higher Sum Assured on Maturity, we will offer you a discount on your premium amount.

Premium Discount

The below table shows the Sum Assured on Maturity bands and the level of discount for each band:

| Sum Assured on Maturity | Policy Term | | |
|-------------------------|---------------|---------------|----------|
| | 10 – 14 years | 15 – 19 years | 20 years |
| 1,00,000 - 1,90,000 | 3.00% | 4.50% | 6.50% |

You have a flexibility to choose the duration after which you want your guaranteed amount without jeopardising your dreams. We offer you a range of policy terms that will ensure that you receive the benefits at the time you wish to receive it.

— **“Know how long you wish to pay” → Choose your Premium Paying Term**

You have a flexibility to choose the duration of paying your annual premiums. We offer you a choice of limited premium paying terms.

Based on the above choices, we will calculate your annual premium. The premium loading factors for annual and monthly mode is:

| Premium Frequency | Modal Loading | Modal premium (as a % of Annualized Premium) | Sample Premium (Annualized Premium = 100,000) |
|-------------------|---------------|-------------------------------------------------|--------------------------------------------------|
| Monthly | 5.6% | 8.8% | 8,800 |
| Annual | 0.0% | 100% | 100,000 |

** Applicable taxes will be separately levied on the premium and will be borne by you.*

How do you get covered?

Having a simple plan is not enough, so we have extended this simplicity in our application process to make it hassle free and convenient for you.

All you need to do is complete our simplified short proposal form and get yourself covered. That's it!

WHAT'S MORE?

A. POLICY LOAN BENEFITS

With simplicity and flexibility, we also offer you liquidity. In case of any financial emergency, we give you an option to avail a loan against your policy once your policy has acquired a Surrender Value. The maximum loan amount is defined as a percentage of Surrender Value and varies based on the Premium Paying Term as given below:

| Premium Paying Term (Years) | Max. Loan amount (as a % of Surrender Value) |
|-----------------------------|----------------------------------------------|
| 5 | 60% |
| 7 | 60% |
| 10 | 70% |
| 12 | 70% |

Interest will be charged on the outstanding loan amount at a rate declared by the Company from time to time based on then prevailing market conditions and will be equal to "SBI Base Rate + 1.75%". The current rate of interest on policy loan is 10.20% per annum.

Company will notify you when your outstanding loan balance is 95% of the surrender value and you can repay all or part of the loan balance. If at any point of time outstanding policy loan balance equals or exceeds surrender value, then the policy shall be terminated without value. On death of the life insured, maturity or surrender of the policy the outstanding loan amount and accumulated interest will be recovered from the benefit payable and rest of the benefit amount will be paid.

B. INCOME TAX BENEFITS

You can avail income tax benefits on the premiums paid as per prevailing income tax laws. Tax benefits are subject to change in the tax laws.

C. NON-FORFEITURE BENEFITS

In order to continue securing your dreams, we would advise you to continue paying your premiums on a regular basis. This will help in keeping your benefits intact and at the same level so that you can meet your financial requirements as you have dreamt of.

Due to any reason you are unable to pay your premium on your premium due date, you will have additional 15 days, where you pay the premium on a monthly basis, and 30 days in all other cases, as grace period to pay your premiums. During this grace period, the policy will remain in force and all your benefits will continue.

However if you do not pay your premiums by the end of the grace period, your policy benefits will be impacted in the following manner:

- If you have not paid Premiums for at least first two Policy Years in full, your policy will lapse and will not be eligible for any benefits thereafter.
- If you have paid Premiums for at least first two Policy Years in full and if you are unable to pay your subsequent premiums, your policy will continue as a 'Reduced Paid-up' policy.

Reduced Paid-Up

Under 'Reduced Paid-up' all your benefits under the policy will be reduced. Your Guaranteed Death Benefit and Guaranteed Maturity Benefit will be multiplied by the Paid-up Factor which is equal to number of premiums paid divided by number of premiums payable.

Revival

You have an option to revive your policy within five years from the date of the first unpaid premium. The revival will be considered on receipt of written application from the policyholder along with the proof of continued insurability of Life Insured and on payment of all overdue premiums together with interest as declared by the Company from time to time.

The revival interest rate will be based on G-sec rate with 1 - 2 year maturity. Source to determine the G-Sec yield is www.ccilindia.com. The per month interest rate shall be $(x + 3\%)/12$ rounded upto nearest 0.25%, where x is G-Sec rate with 1 to 2 year maturity. The interest rate to be charged is currently set at 0.75% per month on unpaid premiums for every completed month from the date of the first unpaid premium. The interest rate methodology is reviewable with prior approval from IRDAI. The Company will review the interest rate at least once a year.

Surrender Benefit

Insurance is a long term contract and in order to continue securing your dreams, we would advise you to continue your policy and avoid surrendering it. However in case of financial emergency, you may surrender this policy. Your policy will acquire surrender benefit based on the premium paying term you choose and the number of premiums you have paid.

– Your Policy acquires Surrender Value if all the premiums have been paid in full for at least first two policy years.

The Surrender Value is higher of Guaranteed Surrender Value and Special Surrender Value. On surrender of the policy, the Surrender Value, if any, will be immediately paid and policy will be terminated. The Guaranteed Surrender Value is a specific percentage of Total Premiums Paid till the date of surrender and will vary depending on your policy term and the year in which the policy is surrendered.

The Guaranteed Surrender Value factors are given in the table below:

| The Figures given below are in % | | | | | | | | | | | |
|----------------------------------|-------------|----|----|----|----|----|----|----|----|----|----|
| Policy Year of Surrender | Policy Term | | | | | | | | | | |

The Special Surrender Value shall be calculated as Sum Assured on Maturity multiplied by the Paid-up factor multiplied by the applicable SSV factor. Paid-up factor is equal to number of premiums paid divided by number of premiums payable. We will apply the SSV factor as decided by us, from time to time, with the prior approval of IRDAI.

Before making a request for surrender, you may approach us to obtain the Surrender Value and/ or applicable Surrender Value factor in respect of your Policy.
