In case the Life Insured is a minor, the ownership of Policy will automatically vest on the Life Insured on attainment of majority. The relationship between the Proposer and the Life Insured in such case should be such that there is a legally accepted insurable interest between the two as per the Board Approved Underwriting Policy. In case of death of the Life Insured who is a minor, the death benefit will be paid to the Proposer in the policy. In case the Life Assured is major, the Policyholder and the Life Assured shall be the same person. The Policyholder should ensure that while the Life Insured is still a minor, the Income Pay-outs are used for the benefits of the minor life.

This plan provides you and your family with regular income through Income Benefit which is Guaranteed Income and Cash Bonus (If declared) which you can use as a second income or retirement income.

Options under the plan: This product provides multiple options to choose from. These options help you customize the plan according to your individual needs. Your Premium will vary depending upon the option chosen.

Family Income Benefit: This benefit ensures that in case of an unfortunate event of death or diagnosis of covered Critical Illness of the Life Insured, you and your loved ones don't have to compromise on your dreams as you/they will continue to receive the Income Benefit and Maturity Benefit without having to pay any future premiums*. In case of death of the Life Insured during the Policy Term while the Policy is In-Force, in addition to the above benefit, Sum Assured on Death will be payable as lumpsum.

This benefit needs to be exercised at Policy Inception only. You cannot add this Benefit after Policy Inception. Once opted, it cannot be opted out anytime during the Policy Term. This Benefit is available subject to Board Approved Underwriting Policy.

* Rider premiums, if any will still be required to be paid as and when due.

Income Options: This plan provides Income Benefit in the form of Guaranteed Income and Cash Bonuses (if declared). You have two Income Options to choose from. You need to select one of these options at Policy Inception only and once selected, the Income Option cannot be changed. The two Income Options are:

1. **Early Income:** Under this income option, Guaranteed Income will be paid annually at the end of each Policy year starting from the second Policy Year in the form of cash payout and is payable till Maturity Date or death of the Life Insured, (unless Family Income Benefit is opted) whichever is earlier, while the Policy is In-Force. If the benefit under Family Income Benefit is triggered, the Guaranteed Income will be payable till Maturity Date.
2. **Deferred Income:** Under this Income Option, Guaranteed Income will be payable annually at the end of each Policy Year starting from the Policy Anniversary falling immediately after the completion of Premium Paying Term in the form of cash payout and is payable till Maturity Date or death of the Life Insured, (unless Family Income Benefit is opted) whichever is earlier, while the Policy is In-Force. If the benefit under Family Income Benefit is triggered, the Guaranteed Income will be payable till Maturity Date.

Under both the Income Options, cash bonus (if declared) will commence from the Policy Anniversary falling immediately after the completion of Premium Paying Term and will be paid annually till Maturity Date or death of the Life Insured (unless Family Income Benefit is opted), whichever is earlier, while the Policy is In-Force. If the benefit under Family Income Benefit is triggered, the Cash Bonus (if declared) will be payable till Maturity Date.

Cash Bonus is a non-guaranteed bonus which may be payable based on the performance of the participating fund of the Company. Cash Bonus is expressed as a percentage of the Sum Assured on Maturity and cumulative Paid-up Additions on Maturity, if any. The rate of Cash Bonus on Sum Assured on Maturity and that on cumulative Paid-up Additions on Maturity may be different.

Guaranteed Income Type: You have two Guaranteed Income Types to choose from. You need to select one of these types at Policy Inception only and once selected, the Guaranteed Income Type cannot be changed. The two Guaranteed Income Types are:

1. **Level Guaranteed Income:** Under this Guaranteed Income Type, same Guaranteed Income amount will be payable at every pay-out and will be equal to 1.5% of Sum Assured on Maturity.
2. **Increasing Guaranteed Income:** This Guaranteed Income Type is not available when Early Income is chosen as the Income Option. Under this Guaranteed Income Type, Guaranteed Income amount will increase annually. The Guaranteed Income amount will be equal to 0.75% of Sum Assured on Maturity on the Policy Anniversary falling immediately after the completion of PPT and thereafter increasing by a fixed amount every year which is calculated as 5% of the Guaranteed Income payable on the Policy Anniversary falling immediately after the completion of PPT.

Paid-Up Additions: You will have the option to convert future Income Benefit to Paid-up Additions Benefit. Paid-up Additions Benefit are benefits which get accrued to the policy in lieu of cash pay-out of Income Benefit in the form of 'Paid-up Additions on Maturity' and 'Paid-up Additions on Death'. Instead of cash pay-out, converting the Income Benefit to Paid-Up Additions helps you to enhance Death Benefit, and Maturity Benefit. You can also choose to withdraw the Paid-Up additions without having to surrender the Policy. This helps in better liquidity without having to compromise on losing all other benefits under the Policy. Unless withdrawn, Paid-Up-Additions can either be paid on death, maturity or surrender, whichever is earlier.

You can choose Paid-up Additions Benefit at the inception of Policy or at any subsequent Policy Anniversary by submitting a written request to the Company 60 days prior to such Policy anniversary. If Family Income Benefit is chosen, there will be no option to convert future Income Benefit to Paid-up Additions Benefit after diagnosis of the covered critical illnesses conditions. At any point of time during the Policy Term, Policyholder also has an option to switch from Paid-up Additions Benefit to cash payout. This switching is allowed only on Policy Anniversary subject to receipt of written request 60 days prior to such Policy Anniversary. The conversion of income benefit to Paid-up Additions Benefit will cease once the life assured attains age of 75 years post which Income Benefit will be paid as cash payout. However, the Paid-up Additions Benefit already accrued will continue and will be paid as and when due.

'Paid-up Additions on Maturity' is calculated as {'Paid-up Additions Benefit' factor X (Income Benefit converted to Paid-up Additions Benefit)}

Kindly note:

- Some benefits are guaranteed, and some benefits are variable with returns based on the future performance of the Company. If your policy offers guaranteed benefits, then these will be clearly marked “guaranteed” in the illustration table on this page. If your policy offers variable benefits then the illustrations on this page will show two different rates of assumed future investment returns, of 8% p.a. and 4% p.a. These assumed rates of return are not guaranteed, and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance.
- BOY means beginning of year and refers to the amount that is paid at the beginning of the Policy Year.
- EOY means end of year and refers to the amount that is paid at the end of the Policy Year.

Policy Loan: A life insurance policy should be handy for you in case of any adverse financial emergencies and this plan caters to that, whereby you can avail a loan under the policy once the policy acquires surrender value.

The maximum loan amount you may avail is a specific percentage of Surrender Value applicable under the Policy when a request for a loan is received less any outstanding Policy Loan plus accumulated/accrued interest, if any, on that date. The specific percentage is as mentioned below:

Without Family Income Benefit: 60%

With Family Income Benefit: 50%

If a loan is granted by us under the policy, then:

- (1) Interest will be charged on the outstanding loan amount at a rate declared by the Company from time to time based on then prevailing market conditions and will be equal to Three year (tenure) SBI MCLR + 0.50% subject to floor of 7.00%. The rate of interest for policy loan as on Mar 2020 is 8.85% per annum. The interest rate methodology is reviewable with prior approval from IRDA of India. The Company will review the interest rate at least once a year and if the interest rate is revised, the same interest rate will be applied to both existing and new loan from the date of revision.

- (2) The In-Force policies will not be foreclosed for non-payment of outstanding loan balance. For Reduced Paid-Up policies, we will give you a written notice when the outstanding loan amount and accumulated interest is 95% of the Surrender Value and you may re-pay the whole or a part of the outstanding loan plus accrued interest to us. If at any point of time, the outstanding loan amount and accumulated interest equals or exceeds Surrender Value then the Policy will be immediately and automatically terminated, and no amount shall be payable by us under the Policy.
- (3) Any benefit payable by us on the death of the Life Insured or on applicable Policy Anniversaries as Income Benefit or on the surrender of the policy or on the maturity of the policy will first be reduced by any outstanding policy loan and accumulated interests, if any.

Non-forfeiture Benefits

You shall pay the Premium for the entire Premium Paying Term. If agreed by us, you may change your Premium Paying Frequency during the Premium Paying Term, to any other Premium Paying Frequency as allowed under the plan. For Premium Paying Frequencies other than annual mode, additional loadings as applicable will be applied on the Annualized premium.

Premium Discontinuance:

- (i) If all the Premiums for at least first two Policy Years have not been paid in full within the Grace Period, the Policy shall immediately and automatically lapse and no benefits shall be payable by us under the Policy, unless the Policy is revived within the revival period.
- (ii) If all the Premiums for at least first two Policy Years have been paid in full, and if we do not receive subsequent Premiums within the Grace Period, the Policy will acquire Reduced Paid-Up status and benefits will continue as per the Reduced Paid-Up provision.

Reduced Paid-Up: Once your Policy has acquired the Reduced Paid-Up status, the following amounts will be applicable:

Reduced Paid-Up Sum Assured on Death = Sum Assured on Death x Reduced Paid-Up Factor

Reduced Paid-Up Sum Assured on Maturity = Sum Assured on Maturity x Reduced Paid-Up Factor

Reduced Paid-Up Cash Bonus = Cash Bonus (if declared) x Reduced Paid-Up Factor

Reduced Paid-Up Guaranteed Income = Guaranteed Income x Reduced Paid-up Factor for Guaranteed Income

Where, Reduced Paid-Up Factor for benefits other than Guaranteed Income = Number of Premiums paid/ Number of Premiums payable

Reduced Paid-Up Factor for Guaranteed Income is as below:

For Early Income Option:

$$\{(\text{Policy Term} - 1) * (\text{Number of premiums paid} / \text{Number of premiums payable}) - \text{No. of Guaranteed Income paid}\} / (\text{Policy Term} - \text{Premium Paying Term})$$

For example, if the Policy term is 45 years, premium paying term is 10 years and only 6 years premiums have been received by us and 5 instalments of Guaranteed Income would have been paid to the Policyholder by the time policy attains reduced paid-up status. In this case, the Paid-up factor for guaranteed income for early option will be:

$$\{(45-1) * (6/10) - 5\} / (45-10) = 0.6114$$

For Deferred Income Option:

(Number of premiums paid/ Number of premiums payable)

Under Early Income Option, once the policy becomes Reduced Paid-up, the Guaranteed Income pay-outs shall be stopped immediately until the end of the Premium Paying Term. After the completion of Premium Paying Term, Reduced Paid-up Guaranteed Income pay-outs will commence.

Other Reduced paid-up benefits will be paid as and when due after policy acquires 'Reduced Paid-up' status.

'Reduced Paid-up' policy will not be eligible for terminal bonus, if any.

If the Policyholder has opted for 'Paid-up Additions Benefit', and the Policy becomes 'Reduced Paid-up', future Reduced paid-up Cash Bonus and Reduced paid-up Guaranteed Income will continue to be converted to 'Paid-up Additions Benefit' unless explicitly switched to cash pay-outs. There will be no reduction to the cumulative 'Paid-up Additions Benefits', if any, accrued to the policy.

If the Policyholder has not opted for 'Paid-up Additions Benefit', and the Policy becomes 'Reduced Paid-up', the Policyholder has the option to convert future Reduced paid-up Cash Bonus and Reduced paid-up Guaranteed Income to 'Paid-up Additions Benefits'.

The following benefits will be payable for a Reduced Paid-Up Policy:

Surrender Benefit: The Policy will acquire Surrender Value if all the Premiums have been paid in full for at least first two Policy Years.
